James Bell

james_the_dev@outlook.com | jamesthedev.github.io/portfolio

I love writing code! My main goal is to grow my skillset and continue to pursue a fulfilling, lifelong career in software development. My problem-solving, teamwork, and leadership skills help me become a better developer every day.

SKILLS

C#, .NET, .NET Core, Razor Pages, Vue.js, jQuery, SQL, LINQ, Oracle DB, Toad for Oracle DBMS, Bootstrap, HTML/CSS/JavaScript, Agile/Scrum, Team Foundation Server, IIS

WORK EXPERIENCE

SOFTWARE DEVELOPMENT LEAD | DELAWARE NATION INDUSTRIES | MAY 2021 – PRESENT

- Responsible for leading, mentoring, and developing a team of seven .NET developers with diverse experience levels on an Air Force defense contract
- Assumed Scrum Master role: lead daily standups, lead sprint meetings, adjust and manage multiple development teams, and assist the product owner in refining the product backlog
- Delegate and work application support tickets using BMC Remedy
- Interview and hire new developers

FULL-STACK .NET DEVELOPER | DELAWARE NATION INDUSTRIES | MAY 2019 – APRIL 2021

- Created and supported .NET web applications and .NET Core web APIs as a part of an experienced Scrum development team. Wrote code extensively in C#, Bootstrap, jQuery, Vue.js, SQL, and LINQ
- Used Team Foundation Server for version control and product backlogs
- Designed, normalized, created, and queried Oracle database tables in a database with hundreds of tables and hundreds of thousands of records
- Maintained secure coding practices per Department of Defense regulations (STIGs)

CLIENT SYSTEMS TECHNICIAN | ROME RESEARCH CORPORATION | DECEMBER 2018 – MAY 2019

- Provided IT support for tens of thousands of military and civilian personnel working on Tinker Air Force Base, including deploying software, bug fixes, and security patches to Windows PCs

25L CABLE SYSTEMS INSTALLER/MAINTAINER | ARMY NATIONAL GUARD | DECEMBER 2015 – PRESENT

- Install and test wire and cable systems, repeaters, telephones, and other mission-critical communications equipment

- Perform preventive maintenance checks and services (PMCS) and unit level maintenance on communications security devices, power generators, telephone lines, and assigned vehicles

- Effectively work with a large and diverse team under high-stress conditions

- Obtained security clearance

EDUCATION AND CERTIFICATIONS

AMERICAN MILITARY UNIVERSITY

- **Bachelor of Science in information technology; software development concentration**

  - Studied Java EE, Python, SEO, web analytics, SDLC, network management, database & application security, and database management

  - 3.9 GPA; Summa Cum Laude

OKLAHOMA CITY COMMUNITY COLLEGE

- **Associate of Applied Science in Computer Science; computer programming minor**

  - Studied C++, Java, HTML, CSS, JavaScript, PHP, C#, Visual Basic, and SQL

  - Developed strong foundation in OOP, functional programming, database management, and web development

  - 3.5 GPA

- **Certificate of mastery, web development**

  - Studied web site creation, client- and server-side scripting, secure programming practices, and database management

  - 3.7 GPA

COMPTIA SECURITY+

- Verification Code: PFJNRQD3R34E1D54
